

# Teacher Cerise

Dear Families and Friends,

Since my very first teaching experience over eight years ago in Beijing China, I've known my ultimate passion resides in working with and serving children and families. While overseas, my teaching experience was predominately in the English as a Second Language or ESL field. However since relocating back to the U.S. to pursue a degree in education, I've had the opportunity to guide students through a combination of research-based, integrated and Montessori curriculums, as well as exercise the "whole child" approach to each and every student.

While not going to school or teaching, I enjoy being outdoors and exploring all diversity the Pacific Northwest has to offer by camping, hiking, kayaking, swimming, and gardening, or playing soccer, basketball and tennis. Other hobbies include reading, listening to music, photography and art, and learning about new cultures and naturopathic medicine.

I'm extremely excited and honored to be joining the City of SeaTac ABC...123 Preschool! Lastly, I look forward to this year and getting to know you and your family.

Sincerely,

Teacher Cerise
