Definitions.

The words and phrases defined in this section shall have the meanings indicated when used in this chapter unless the context clearly requires otherwise.

(5) "Dangerous wastes" means any discarded, useless, unwanted, or abandoned substances, including but not limited to certain pesticides, or any residues or containers of such substances which are disposed of in such quantity or concentration as to pose a substantial present or potential hazard to human health, wildlife, or the environment because such wastes or constituents or combinations of such wastes:

(a) Have short-lived, toxic properties that may cause death, injury, or illness or have mutagenic, teratogenic, or carcinogenic properties; or

(b) Are corrosive, explosive, flammable, or may generate pressure through decomposition or other means.

(6) "Extremely hazardous waste" means any dangerous waste which

(a) will persist in a hazardous form for several years or more at a disposal site and which in its persistent form

(i) presents a significant environmental hazard and may be concentrated by living organisms through a food chain or may affect the genetic make-up of man or wildlife, and

(ii) is highly toxic to man or wildlife

(b) if disposed of at a disposal site in such quantities as would present an extreme hazard to man or the environment.

(15) "Hazardous waste" means and includes all dangerous and extremely hazardous waste, including substances composed of both radioactive and hazardous components.

RCW 43.200.015

Definitions.

As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "High-level radioactive waste" means "high-level radioactive waste" as the term is defined in 42 U.S.C. Sec. 10101 (P.L. 97-425).

(2) "Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than one hundred nanocuries of transuranic contaminants per gram of material, nor spent nuclear fuel, nor material classified as either high-level radioactive waste or waste that is unsuited for disposal by near-surface burial under any applicable federal regulations.

(3) "Radioactive waste" means both high-level and low-level radioactive waste.

(4) "Spent nuclear fuel" means spent nuclear fuel as the term is defined in 42 U.S.C. Sec. 10101.

(5) "Department" means the department of ecology.

AUTHORIZATION FOR SPECIAL BILLING
